Components

Hand held moisture measuring instruments RH serie

for measuring of relative air humidity and/or temperature, for moisture determination of wood, pellets, piles of paper, concrete, screed

e.g. moisture measuring device RH5

for measuring of moisture and/or temperature in piles of paper, mobile quality control and quick check

e.g. moisture measuring device for pellets BP1

for measuring of moisture and/or temperature of wood pellets, PC interface and printer optional

Laboratory moisture analyzer UX 2011 D / UX 2031 D

Laboratory moisture analyzer, optional with infrared or dark bulb, for measuring material and crystal bound moisture, e.g. gypsum or similar materials

For further technical information please ask for detailed data sheets.

Other hand held device upon request.

Non contact temperature measuring

Air humidity transmitter serie LF-T

Sensors (transmitter) for relative humidity and temperatures up to 180° C

Hand held moisture measuring instruments FS_3 serie

Universal moisture measuring instrument for moisture measuring of even surfaces of different materials and bulk goods. Calibration possible for up to 16 materials: paper, insulating material, concrete, screed, wood, clinker, plaster and dry construction materials.

e.g. FS_3 Grain-Z

Universal moisture measuring instrument for grains, without sample preparation (no milling necessary). Can be calibrated for up to 16 sorts of grain, e.g. corn, wheat, spelt, rye, barley, seeds of pumpkin and sunflowers, rape, beans, rice, green coffee, etc.

e.g. FS_3 Biomasses

for moisture measuring of bark, pellets, wood chips, saw dust, grains for natural gas plants

Roll sensor RS_30 R

Roll sensor for SF_3 series (upgrade) for moisture measuring on round and uneven surfaces, with sensor calibration

Printer

Controller

Display

for industrial use
free programmable

*We are
the experts for moisture measuring.*

*We offer
creative solutions for all branches.*

*We supply
tailor-made products of highest quality.*

*The best solution
is not enough for us!*

*Please find latest information on our website:
www.acoweb.de*

*Or just call us:
it's a pleasure for our staff to be at service for you.*
